

Exercise 9: Escape the Boom

Goal:

This GLP will evaluate the flight's communication, cohesiveness, response to stressful environments, and ability to effectively delegate.

Group Size:**Time:****Process:**

- Download the app "Escape the BOOM". This app displays a bomb that must be defused by a team. One cadet will be the defuser.
 - They will have the app opened and can only see the bomb.
 - Six cadets will begin with the instruction manual on how to defuse the bomb.
 - One of the cadets with access to the manual will be the "coordinator" and will be responsible for coordinating the defuser and cadets with manuals.
 - Each team will have 12 minutes to complete the objective, and 3 minutes to debrief.
- The defuser must effectively describe the bomb to the cadets with the manual. The cadets with the manual must quickly find the correct section of the manual and relay the information to the defuser. The coordinator must effectively delegate and use resources to ensure the completion of the objective.
