

Exercise 19: Arrange Yourself

Arrange Yourself by Height

- Determine where they will line up, tallest to shortest, then blindfold all flight members.
- They must arrange themselves by height blindfolded and without talking.

Find out everyone's birthday:

- Pair up. Each pair will figure out each other's birthday without talking (no lip reading) or writing.
- When ready, each cadet will give their partner's birthday to the CTA.
 - If not correct, they must do it again. A twist – if one person messes up, have every flight member speak again until all are correct. Harder: make them in chronological order, too.

Arrange yourselves by Mom's maiden name

Time:

15 minutes.

Brief:

The Flt/CC will arrange the flight by mother's maiden name. No one in the flight but the Flt/CC can speak. They have 10 minutes.
