

Exercise 41: Messy Memo

Time:

- Mess up a Memorandum, make some of the errors obvious, while others are harder to distinguish
- Have them use the AFI to get it perfect, but don't let the cadets take advantage of that tool
- Assign the following roles:
 - **Flt/CC** - oversees all communication
 - **Flt/CD** - helps Flt/CC
 - **AFI Expert** - can have the AFI open and can relay information to the Deputy
 - **Computer Expert** - for each memorandum issued, they are the only ones allowed to edit the memorandum
 - One person will be assigned to each memorandum
- Try to limit communication wherever possible
- About 10 minutes to fix memorandum, 1 minute debrief
- You could add in new rules:
 - So for example, if a cadet breaks the rules you set in place you can say "suspend problem solving for 30 seconds"
